## **POST EVENT REPORT**

### **Mastering Photographic Techniques for Dental Professionals**

**21/05/2024**

The Employability and skill development session on **Mastering photographic techniques for dental professionals**, conducted by Dr. Saicharan, senior lecturer, Department of conservative dentistry and endodontics, aimed to equip the students with essential photography skills applicable to the field of dentistry. The session took place in the Seminar Hall of the Department of Conservative Dentistry and Endodontics from 2:00 PM to 3:00 PM. Dr. Saicharan initiated the session by emphasizing the importance of photography in dentistry and its role in diagnosis, treatment planning, and documentation. Students were introduced to various photographic equipment and tools essential for dental photography, including cameras, lenses, mirrors, retractors, and intraoral mirrors. Dr. Saicharan provided valuable insights on post-processing techniques to enhance dental images and ensure clarity and accuracy for professional use. The session concluded with an interactive Q&A session, enabling attendees to seek clarification on specific techniques and challenges related to dental photography.
