## **POST-EVENT REPORT**

The Soft Skill Development Class on Problem Solving, led by Dr. Anil Melath, Principal, MINDS, for fourth-year BDS students aimed to enhance their problem-solving abilities crucial for their academic and professional endeavours. Through engaging discussions and practical exercises, participants learned systematic approaches to problem-solving, including analytical techniques like root cause analysis and creative problem-solving methods. The session emphasized the importance of effective communication and collaboration in addressing challenges, fostering improved critical thinking and decision-making skills among attendees. Feedback indicated high satisfaction with the session's relevance and utility, highlighting its potential to contribute significantly to participants' growth in dentistry. Recommendations include ongoing practice and integration of soft skill development programs into the curriculum, underscoring the session's success in empowering students to tackle complex problems confidently.
