MESSAGE FROM THE CHAIRMAN

It gives me immense pleasure to welcome you to the first edition of our Dental College e-Newsletter–a new platform to celebrate our achievements, share our experiences, and strengthen the spirit of our academic community.

Our institution is built not only on knowledge and clinical excellence, but also on compassion, integrity, innovation, and a commitment to serving society. I am confident that our students and faculty will continue to uphold these values and strive for excellence in all that they do.

May this newsletter become a vibrant reflection of our journey, capturing the milestones, talents, and aspirations that shape our institution. I extend my heartfelt appreciation to everyone who has contributed to this initiative and wish the e-Newsletter continued success in the years ahead.

With my best wishes for a bright and fulfilling journey ahead.

Warm regards,

Mr. K. P. Ramesh Kumar

Chairman, MINDS

MESSAGE FROM THE CEO

It is a matter of great pride to present the inaugural edition of our Dental College e-Newsletter, celebrating the milestones, achievements, and aspirations of our institution.Our vision extends beyond academic excellence—to nurture competent professionals, ethical practitioners, innovative thinkers, and compassionate human beings. Through excellence in education, research, and patient care, we remain committed to creating a meaningful and lasting impact on society.

I commend the faculty, students, staff, and editorial team for this thoughtful initiative and congratulate them on bringing this publication to fruition.May we continue to pursue excellence with purpose, integrity, and an unwavering commitment to the future of dental education and healthcare.

Warm regards,

Dr. Nida Ramesh

CEO, MINDS

MESSAGE FROM THE DEAN

It gives me immense pleasure to present this edition of our newsletter, which beautifully captures the academic achievements, creative endeavours, and memorable moments of our institution.

At MINDS, we remain committed to fostering excellence in education, research, clinical practice, and professional values. Every achievement reflects the dedication of our students, faculty, and staff who continue to contribute to the growth of our institution.

I congratulate the editorial team for their sincere efforts in bringing together the accomplishments and activities of our academic community.

May this newsletter inspire us to continue learning, innovating, and striving for excellence.

MESSAGE FROM THE PRINCIPAL

I am pleased to share this edition of our e-newsletter, which highlights the academic accomplishments, clinical initiatives, research activities, and outreach programmes of our institution.

Our continued focus remains on providing quality dental education while preparing students to meet the evolving needs of the profession and society. I congratulate our students and faculty on their achievements and appreciate their continued commitment to excellence.

Let us continue to uphold the highest standards of education, ethics, and patient care.

MESSAGE FROM THE VICE PRINCIPAL

This edition of our e-newsletter offers a glimpse into the academic, clinical, and extracurricular activities that enrich campus life. These initiatives play an important role in developing competent, ethical, and socially responsible dental professionals.

Every achievement reflects the dedication of our management, students and faculty. Let us continue to learn with curiosity, practise with compassion, and strive for excellence in all that we do.

Together, let us shape a future built on competence, compassion, and commitment.

Redefining Excellence in Periodontology and Implantology.

The Department of Periodontology and Implantology headed by Prof. Dr. Anil Melath has been honoured with the prestigious Centre of Excellence Award in recognition of its outstanding commitment, innovation, and excellence in the field of dental implants. This distinguished achievement reflects the department's continuous efforts in advancing implant dentistry through clinical expertise, academic excellence, research, and patient-centred care. The department has also made notable contributions through copyrights and patents, demonstrating its commitment to innovation and the development of novel techniques and technologies. This recognition stands as a testament to the dedication and collaborative efforts of the faculty, researchers, clinicians, and students in advancing the field of periodontology and implantology.

The Department of Periodontology and Implantology,
Mahe Institute of Dental Sciences and Hospital, Chalakkara, Mahe, Pondicherry, India

Awarded

CENTER OF EXCELLENCE 2026 AWARD

In recognition of the exceptional contribution in Implant research and education

The Department of Periodontology and Implantology, Mahe Institute of Dental Sciences and Hospital, is committed to excellence in clinical practice, academics, and research, with expertise in both conventional and basal implantology. The Department successfully performs full-mouth rehabilitations using basal implants, numerous double basal implant procedures, and over 100 conventional implant placements.

A major academic achievement was the registration of a copyright for the clinical work titled *"Aesthetic and Functional Restoration of Missing Anterior Tooth with Double Basal Implants: A Clinical Case Report,"* reflecting the Department's emphasis on innovation, research, and scientific documentation.

The department is a constant hub of several National & State level Conferences & CDEs of Dental Implants. Through the seamless integration of advanced clinical care, research, innovative initiatives, and comprehensive training programs, Department continues to uphold highest standards in implant dentistry

This award is presented at **International Implant Summit'26** organized under the aegis of Global College of Oral Implantologists (GCOI) supported by Malaysia Oral Rehabilitation Association & Osseointegration Society of Malaysia on 31st July, 2026 at Bolgatty Palace & Island Resort, Kochi, Kerala, India

The First Oral Path UG convention

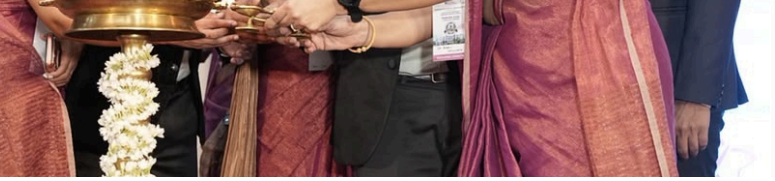

Dept of Oral Pathology

The first Oral Pathology Undergraduate Convention was successfully organized by the Department of Oral Pathology headed by Dr.Selvamani.M and conducted on 26 and 27, June 2026. The two-day academic event provided an engaging platform for undergraduate dental students to enhance their knowledge and understanding of Oral Pathology.

The event brought together students, faculty members, and dental professionals, fostering meaningful academic interaction. The successful conduct of the convention reflected the institution's commitment to promoting undergraduate education, academic excellence, and professional development in dentistry.

PEDKON'26

3rd Kerala State conference

The third Kerala State Conference of PEDKON 2026 was successfully organized by The Department of Pedodontics and Preventive dentistry headed by Dr.Ambili Ayilliath and conducted at Mahe Institute of Dental Science and Hospital on 8th and 9th August 2026.

INAUGURATION OF

DEPARTMENT OF IMPLANTOLOGY

The Department of Implantology, Headed by Dr.Arjun. M.R was formally inaugurated by Chairman, MINDS, Mr.K.P.Ramesh Kumar with the commencement of a comprehensive Skill Development Program in Basal Implantology. The program marked an important milestone with Professor Dr. VeerendraKumar S C, President IFFID, being the external Resource person in advancing clinical knowledge and with expertise in modern implant dentistry. The initiative reflects the commitment to promoting continuous professional development, innovation, and excellence in dental implantology while empowering practitioners with contemporary skills for improved patient care.

Hands on, Skills up

SKILL DEVELOPMENT PROGRAM
ON BASAL IMPLANTOLOGY

Celebrating Research Excellence

Celebrating Success in DHR STS-2026 Research

Congratulations to Miss. Nadiya, 2nd-year BDS student, on her successful selection for the DHR Short-Term Studentship (STS-2026) Programme. Her project, "Assessment of Tridoṣa Prakriti as a predictor of dental caries susceptibility and salivary Streptococcus mutans counts: An interdisciplinary exploratory study," reflects an innovative interdisciplinary approach to dental research. Heartiest congratulations to Dr. Rajani Mary George, Professor & Head, Department of Public Health Dentistry, for her valuable guidance and mentorship. We wish them both continued success in their research journey.

ISP–MDS Dissertation Research Grant 2026

Congratulations to Dr. Sukesh A K, First yr Postgraduate, Department of Periodontology headed by Professor Dr.Anil Melath on being awarded the ISP–MDS Dissertation Research Grant – 2026 by the Indian Society of Periodontology (ISP). A research grant of ₹1,00,000 has been sanctioned towards his MDS dissertation titled "Comparative evaluation of the antibacterial efficacy of chlorhexidine, photodynamic therapy and rough implant surfaces: An in-vitro study," under the supervision of Dr. Arjun MR, Research Guide, and Dr.Hemalatha.D.M., Co-guide. We wish him every success in the successful completion of this study.

Onam

The MINDS campus came alive with the spirit of Onam, on 28th August with a vibrant Pookalam competition held in the main courtyard, judged across categories for creativity and use of natural flowers. Students and faculty came together for a traditional Onasadya, served on banana leaves, followed by classic Onam games including tug-of-war. All departments participated enthusiastically, with the Student Council coordinating the day's events.

"From golden Pookalams and patriotic pride to the flavours of Khana Peena – here's how the campus came together in celebration this month."

The college marked Independence Day with a flag-hoisting ceremony led by the Chief Security Officer, followed by the National Anthem and a short address on the significance of the day.

Celebrating COUNTRY, CULTURE & CUISINE

"Khana Peena"

Organized by the Student Council, Khana Peena brought together food stalls from every batch, each showcasing regional specialties — from Kerala classics to fusion snacks. The event saw enthusiastic participation from students and staff alike.

A NEW CHAPTER BEGINS

Rotaract Installation Ceremony 2026–27

The Rotaract Club of MINDS, in association with the Rotary Club of Payyanur Midtown, proudly celebrated the Installation Ceremony of its President, Rtr. Evelyn Ajith Joseph, and the new office-bearers for 2026–27. The ceremony brought together Rotaractors, dignitaries and well-wishers to welcome the new leadership and reaffirm their commitment to service, fellowship and meaningful community impact.

The Rotaract Club of MINDS functions in association with the Rotary Club of Payyanur Midtown, under the leadership of Rtn. Dr. Anil Melath, District Governor Representative, and Dr. Padmanabhan, ENT Senior Consultant.

Where Ideas Take Shape

Committee Meetings- August 2026

During August 2026, MINDS conducted meetings of several key academic and student-support committees to strengthen student development, academic excellence, and institutional engagement.

The Committee for Student Career Guidance, Placement and Student Progression to Higher Education discussed initiatives to support career planning, placement opportunities, and higher education pathways.

The Dental Education Unit reviewed strategies to enhance teaching-learning practices and academic outcomes.

The Anti-Ragging Committee and Squad reinforced measures to maintain a safe, respectful, and inclusive campus environment.

The Parent–Teacher Interaction Committee focused on strengthening communication and collaboration between parents and faculty for the overall development of students.

The Women Empowerment Committee discussed initiatives promoting awareness, participation, confidence, and equal opportunities for women within the institution.

Together, these committee meetings reflect MINDS' continued commitment to student welfare, academic excellence, professional growth, safety, and an inclusive educational environment.

Vikhsit Bharat Activity

As part of the nationwide "Nasha Mukt Yuva for Viksit Bharat" campaign, towards the vision of Viksit Bharat @2047,inter-collegiate competitions were organised and our college participated enthusiastically in the competitions. Devika, our First Year student, secured the First Prize in the Elocution competition. The Group Song by Catherin & team of First yr BDS secured the Second Prize. Congratulations to the NSS co-ordinator, Dr. Ankita Tejus and the participated students.

Empowering Health, Ensuring Dignity

In a step towards promoting menstrual hygiene, dignity, and student well-being, the management of MINDS institution has installed an automatic sanitary pad dispenser in the ladies' toilet. This initiative ensures easy and discreet access to menstrual hygiene products whenever needed. The facility reflects the management's commitment to creating a safe, supportive, and inclusive campus environment, while encouraging awareness and responsible menstrual health practices among students.

Care without *Borders*

As part of the college's ongoing community outreach initiatives under MINDS Outreach Activities, the Department of Public Health Dentistry conducted a series of dental screening and treatment camps throughout August as part of the services provided through the college's Mobile Dental Unit. The camps were conducted in the following places:

- **Alley School**
- **JNV Pandakkal**
- **NTTF Thalassery**
- **Civil Station, Mahe**
- **Al-Falah School**

These initiatives reflect the institution's continued commitment to promoting accessible oral healthcare and improving oral health awareness within the community.

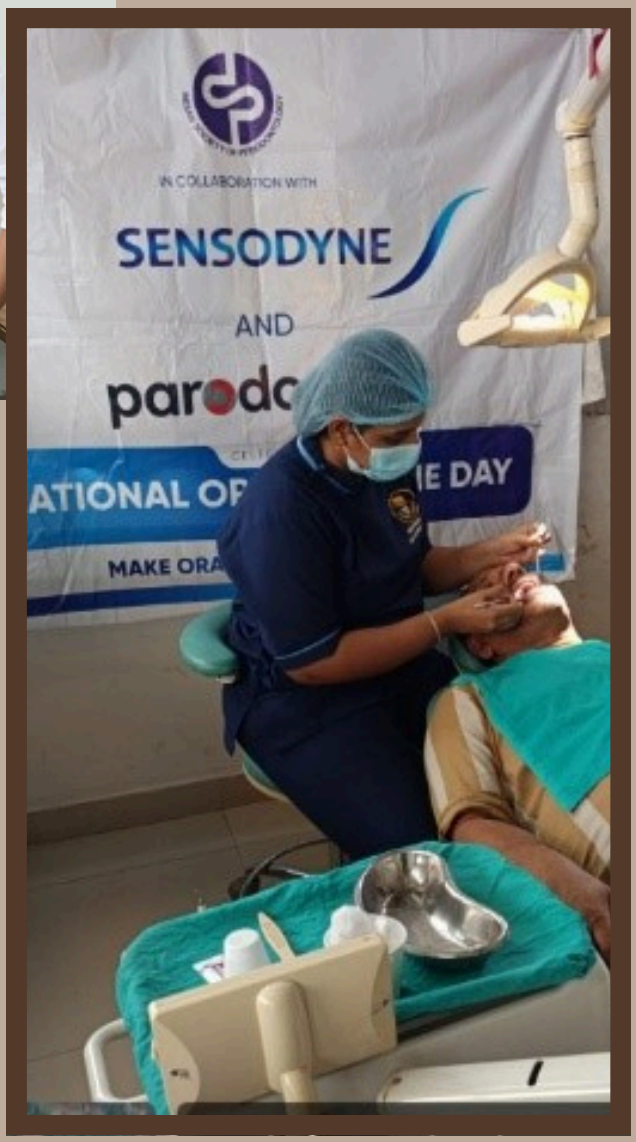

Outreach *Activites*

ORAL HYGIENE DAY

National Oral Hygiene Day was observed on August 1st with the theme "Make Oral Health Your Priority." With the esteemed support of the management, the initiative facilitated free scaling and flap surgical procedures at subsidized rates, extending quality periodontal care to the community, from 5.8.2026 to 12.08.2026. The event was organized by the Department of Periodontology & Implantology, Mahe Institute of Dental Sciences & Hospital (MINDS), in association with the Indian Society of Periodontology and Implantology (ISPI).

BUILDING BRIDGES BEYOND CAMPUS

-MOU related activity

An oral health treatment camp was conducted by the Department of Public Health Dentistry at Minds campus on 21.8.2026 to the patients from Kannavam Tribal Colony as part of our MOU with the community.

The patients were initially screened and OP cards were distributed in the department and a total of 14 patients were treated based on their oral health requirements in various specialties of the institute with all treatments availed by the patients having a 50% discount as part of the MOU.

From Awareness to Action: TCC MINDS

Dr.Raj A C, Professor, Dept. of OMR

Tobacco Cessation Centre by Dept of OMR

The Tobacco Cessation Centre (TCC), MINDS, functions under the Department of Oral Medicine and Radiology and provides comprehensive tobacco-control and oral-cancer prevention services. Following National Tobacco Control Programme (NTCP) guidelines, the centre offers systematic tobacco-use screening, oral examination, personalised cessation counselling, pharmacological support, and Nicotine Replacement Therapy (NRT) for eligible individuals.

TCC MINDS conducts regular follow-ups and promotes awareness regarding tobacco-related diseases, potentially malignant disorders, and oral cancer. Its outreach activities include community awareness programmes, oral cancer screening camps, school and college programmes, CDE sessions, professional training, and student-led anti-tobacco initiatives.

Students actively contribute through IEC materials, models, competitions, pledges, signature campaigns, and innovative awareness activities. The centre also observes World No Tobacco Day, World Cancer Day, Oral Cancer Awareness Month, and other health campaigns.

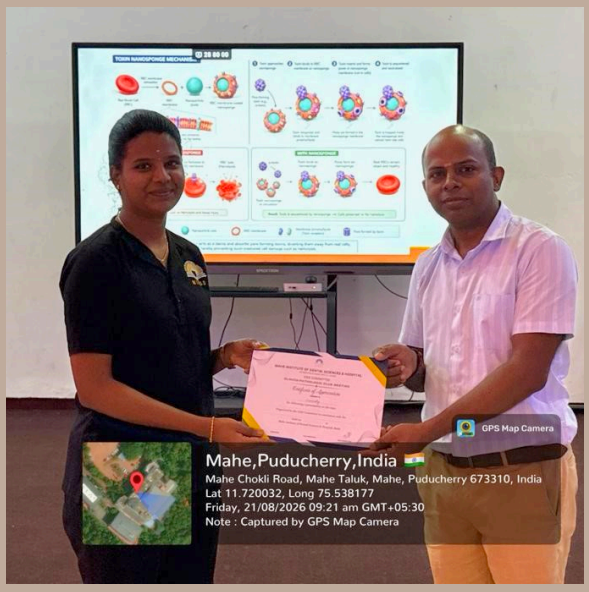

Through screening, counselling, education, research-oriented training, and community engagement, TCC MINDS strives to promote tobacco cessation, encourage early detection of oral diseases, and support healthier, tobacco-free communities.

AUG 2026

CLINICO PATHOLOGICAL CLUB

The Department of Prosthodontics and the Department of Oral Pathology and Microbiology conducted CPC on 5th August and 21 August 2026 respectively. Dr.Sidharth S, Dr.Rashena Nelofur

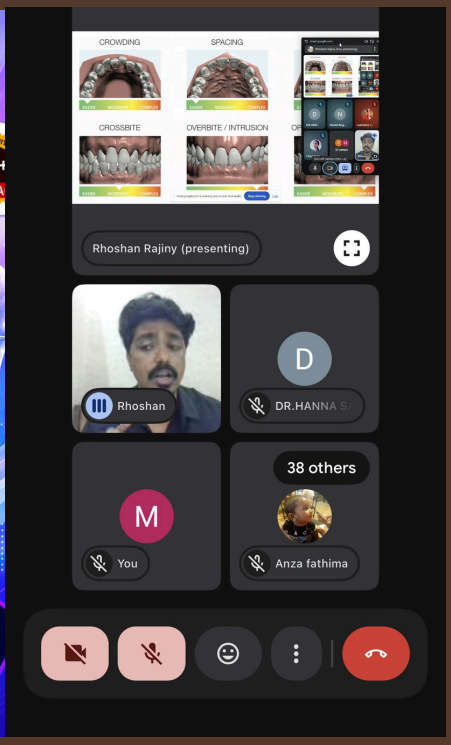

First year PGs of the Department of Prosthodontics presented on the topic “Restoring Facial Aesthetics: Cheek plumper prosthesis”. Ms. Sona Rachel Jose and Ms. Shannmathy S, interns of the Department of Oral Pathology presented on the topic "Cancer Nano Diagnostics."

5 Years of Cognizance

ONLINE WEBINAR SERIES

COGNIZANCE- 60TH WEBINAR

BY DEPT. OF ORTHODONTICS AND DENTOFACIAL ORTHOPEDICS

Department of Orthodontics, MINDS, conducted a COGNIZANCE webinar in Zoom platform on the topic "CLEAR ALIGNERS-SCAN,PLAN,ALIGN&SMILE" on 26th August 2026, from 7:00pm onwards.

The session had started by 7:00pm, with an introduction by Dr Manas G, Reader, Dept of Orthodontics. Following this Professor Dr Raj AC, Dept of Oral Medicine and radiology and CDE convener , addressed the gathering.

Dr Steve Mathew Jacob, Reader, Dept of Orthodontics introduced the speaker for the day, Dr Rhoshan Rajiny, Assistant Professor, Adhiparashakthi dental college.

The session commenced with a presentation on an overview of the topic by Dr Rhoshan.B. Case illustrations and case selection on the topic were discussed in detail.

A Q & A session was followed up after the presentation. Dr Aravind Haridas, Reader, Dept of Orthodontics displayed the certificate of appreciation for the speaker.

The session ended with a vote of thanks by Dr Aravind Haridas.

The link for the Feedback form was displayed in the chat box and certificates were sent through mail Ids.

Cas clinique

ENDOCROWN

-Dept. of conservative dentistry and Endodontics

A 22-year-old female patient reported with a chief complaint of food lodgement in the right mandibular posterior region for the past few months. Clinical examination revealed a fractured, previously root canal-treated molar. In accordance with the planned treatment protocol, endodontic retreatment was performed, followed by definitive restoration with a custom-fabricated E-max endocrown. The treatment successfully restored the tooth's function, structural integrity, and aesthetics, thereby improving the patient's oral function.

FREE GINGIVAL GRAFT

-Dept. of Periodontolgy and Implantology

A 35-year-old female patient reported with a chief complaint of gingival recession and associated sensitivity. Clinical examination revealed localized gingival recession with inadequate attached gingiva in relation to 31 and 41.

A free gingival grafting procedure was performed under local anesthesia. The recipient site was meticulously prepared, following which an adequately sized graft was harvested from the palatal donor site, appropriately adapted to the recipient area, and secured with sutures.
The patient was provided with detailed post-surgical instructions and recalled after one week for postoperative evaluation.

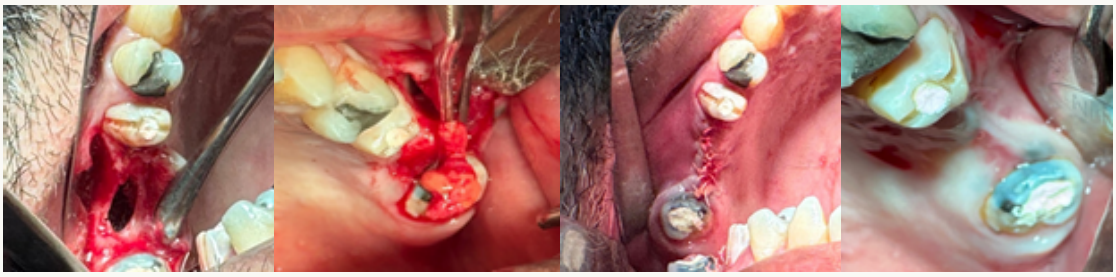

Cas clinique

MALIGNANT ULCER

-Dept. of Oral Medicine and Radiology

Patient reported with the complaint of a non healing ulcer on the left lateral border of tongue and it was noticed 3 months ago, no pain associated with it. On examination ,borders of the ulcer was elevated and thorough clinical examination was done. The case was provisionally diagnosed as malignant ulcer and an investigation of incisional biopsy has been advised.

ORO ANTRAL FISTULA CLOSURE UNDER LA

Dept. of Oral and Maxillofacial Surgery

A 50 year old male patient reported with a complaint of nasal regurgitation while taking food for the last 2 years. After clinical and radiographic examination he was diagnosed with oro- antral fistula in the left maxillary 1st and 2nd molar region. Fistula closure was done using buccal pad of fat and buccal and palatal advancement flap.
Patient was reviewed after 2 weeks and the surgical site is healing well.

Cas clinique

MODIFIED FEEDING PLATE

-Dept. of Pediatric and Preventive Dentistry

A 2 years old baby girl reported to the dept with the parent`s chief complaint of the child having an ulcer on the lower lip caused by repeated lip biting habit. The child was brought to the department with difficulty in feeding, inability to breastfeed adequately due to the non-healing ulcer on the lower lip caused by repeated lip biting habit.

Feeding plate was modified with wire components attached to head strap to reduce lip biting habit and lip lacerations.

TOOTH SUPPORTED OVERDENTURE

-Dept. of Prosthodontics, Crown, Bridge and Implantology

A 59-year-old female reported with multiple missing teeth in the maxillary and mandibular arches and difficulty in mastication. She was known diabetic and was on medication for 15 years, with recent uneventful extractions.

Clinical examination revealed multiple missing teeth. After discussing treatment options, a maxillary tooth-supported overdenture and mandibular conventional RPD were planned. Intentional RCTs were performed on 11, 13, 21 and 23, followed by placement of short dome-shaped copings. The maxillary overdenture and mandibular RPD were subsequently delivered, restoring function and esthetics.

Cas clinique

BASAL IMPLANTS COMPLETE REHABILITATION

-Dept. of Implantology

Full-Arch Basal Implant Rehabilitation: Restoring Function and Esthetics

A female patient presented with compromised dentition requiring comprehensive oral rehabilitation. Following detailed clinical and radiographic evaluation and treatment planning, a full-arch basal implant-supported rehabilitation was successfully carried out for the maxillary and mandibular arches. Strategic implant placement was performed to establish adequate support and stability for the planned prosthetic rehabilitation, with particular attention to the anterior regions.

Following the implant placement and appropriate clinical protocols, PMMA provisional crowns were delivered to restore function, phonetics, and esthetics. The case demonstrates the potential of basal implantology as an approach for full-arch rehabilitation, emphasizing efficient treatment planning, biomechanical considerations, and patient-centred care.

The successful completion of this case reflects the department's commitment to advancing contemporary implant dentistry through clinical expertise and innovative treatment approaches.

CBCT IMAGING
See Beyond the Surface.

THE FUTURE OF DENTISTRY, TODAY

Our institution is committed to integrating advanced digital technologies into dental education, diagnostics, and patient care. With state-of-the-art *CAD/CAM, Aligner Technology, and CBCT facilities,* we continue to embrace modern dentistry with a focus on precision, efficiency, and patient-centred care.

Our CBCT facility provides three-dimensional imaging of the craniofacial region, supporting detailed diagnosis, treatment planning, and comprehensive evaluation across various dental specialties.

Advanced aligner technology facilitates digital treatment planning and customized orthodontic care, combining precision with aesthetics to deliver predictable and patient-friendly treatment experiences.

Our CAD/CAM technology enables digitally driven workflows for the design and fabrication of dental restorations, supporting greater accuracy, consistency, and efficiency in clinical care.

CLEAR ALIGNER TECHNOLOGY
Transforming Smiles, Digitally.

CAD/CAM TECHNOLOGY
Digital Precision. Seamless Dentistry.

We gratefully acknowledge the support extended by the management and appreciate the cooperation of all Department Heads/Department In-charges for providing the departmental updates and information featured in this e-newsletter. The details published are compiled from the respective departments' monthly reports duly submitted and endorsed by the concerned Heads of Departments.

We sincerely appreciate their valuable contributions and continued support.

thank you...
