## POST EVENT REPORT

### Event Details:

- Date : 17/1/2025
- Venue : Zoom Online platform
- Participants : Faculties from various dental institution

### Objective:

The primary objective of this program was to equip faculty members with the knowledge and skills necessary to integrate gamification into undergraduate dental education, enhancing student engagement, motivation, and learning outcomes.

### Program Overview:

The program featured a mix of lectures, workshops, and interactive sessions, covering topics such as: - Introduction to gamification and its applications in dental education - Designing gamified learning experiences for undergraduate dental students - Using game design elements to enhance student engagement and motivation - Assessing the effectiveness of gamification in dental education - Best practices for implementing gamification in undergraduate dental education

**Keynote Speaker :** Dr Subalekshmi , Professor , Malabar Dental College & Research center

### Programme Highlights:

The program achieved its objective of equipping faculty members with the knowledge and skills necessary to integrate gamification into undergraduate dental education. The program highlighted the need for further research on the effectiveness of gamification in dental education. Participants recommended that similar programs be organized in the future to provide ongoing support and training for faculty members.

The faculty development program on 'gamification in undergraduate dental education' was a resounding success, providing faculty members with the knowledge, skills, and confidence necessary to integrate gamification into their teaching practices.
