POST EVENT REPORT

Programme Name: Caesok 22nd Midterm Conference & 14th PG Convention

Date: 2025 May 10th & 11th

Venue: Mahe Institute of Dental Sciences & Hospital

The CAESOK 22nd Midterm Conference was successfully held at the Make Institute of Dental Sciences, MAHE, over two days. The conference featured a series of keynote lectures, PG presentations, and other events, providing a platform for dental professionals to come together and share their knowledge and experiences.

Day 1 Highlights

- Registration took place from 8:00 AM to 9:00 AM, followed by PG presentations from 8:30 AM to 10:00 AM.
- The first keynote lecture was delivered by Dr. Anil Melath from 10:00 AM to 11:00 AM.
- The inauguration ceremony took place from 11:30 AM to 12:00 PM.
- The second keynote lecture was delivered by Dr. Velmurugan N from 12:00 PM to 1:15 PM.
- Lunch was served from 1:15 PM to 2:00 PM.
- The third keynote lecture was delivered by Dr. Narasimhan Bharadwaj from 2:00 PM to 3:15 PM.
- The banquet night was organized at Pearl View from 7:00 PM to 10:30 PM, providing a wonderful opportunity for delegates to network and socialize in a relaxed atmosphere.

Day 2 Highlights

- PG presentations took place from 9:00 AM to 10:00 AM.
- The fourth keynote lecture was delivered by Dr. Saicharan G from 10:00 AM to 11:15 AM.
- The fifth keynote lecture was delivered by Dr. Frency Joseph from 11:30 AM to 12:45 PM.
- The Best of Best session showcased the best research work presented during the conference from 12:45 PM to 1:00 PM.
- The valedictory function marked the end of the conference from 1:00 PM to 1:30 PM.
- Lunch was served from 1:30 PM onwards.

Overall Feedback

The conference received positive feedback from the participants, who appreciated the quality of the keynote lectures and PG presentations. The Best of Best session was also well-

Chalakkara, P.O. Pallor, Mahe-673 310
U.T. of Puducherry. Ph : 0490 2337765

received, and the valedictory function provided a fitting end to the conference. The banquet night at Pearl View was a huge success, with delegates enjoying the beautiful venue and warm hospitality.

Conclusion

The CAESOK 22nd Midterm Conference was a success, providing a platform for dental professionals to come together and share their knowledge and experiences. The conference featured a range of events, including keynote lectures, PG presentations, and the Best of Best session. The valedictory function marked the end of the conference, and the participants departed with new insights and connections.

Subject: Invitation Letter- Guest Speaker.

Respected Dr.Sameera G Nath,

We are planning to conduct a webinar series –Cognizance, at our institution MINDS in association with the MINDS Alumni Association on our zoom platform 24.04.2025 (Thursday) at 7 PM to 8 PM

To have you as our guest speaker would be an honor to the people who will be there and the whole institution. We look forward to your response, and we hope you'll accept the invitation to deliver a webinar on the topic "Interdisciplinary Periodontics".

We are sure our students will definitely benefit from your lecture immensely. Please contact our Programme Co-ordinator Dr. Sharath Chandrashekhar, at 08138040632 if you have any queries.

Thanking you,

Yours faithfully,

Dr. Anil Melath,

Enhancing clinical efficiency with Damon Passive Self Ligation and AdvanSync2 Class II Corrector

DAMONSYSTEM

AdvanSync2
CLASS II MOLAR-TO-MOLAR

Dr Gurkeerat Singh

Damon Passive Self Ligation and Class II Corrector

Theory

Passive self ligation was introduced with claims of many benefits over the conventional orthodontic systems, which were supposed to be having high friction and associated limitations. The benefits of self ligation are low friction, low forces, more biologically compatible tooth movement, good maintenance of oral hygiene and decreased rates of extractions as part of orthodontic therapy.

The aim of this presentation is to enhance the understanding of the "philosophy and biologic rationale", of using the Damon passive self ligation appliance system.

Treatment_planning

The AdvanSync2 system is a molar to molar class II corrector appliance that allow us to be simultaneously correcting the Class II while leveling and aligning the arches. With the efficiency of this system, Class II treatment is accomplished in virtually the same amount of time as our standard cases. Unrestricted lateral excursion is possible. It is very comfortable for the patient since it is 50% smaller than other fixed class II correctors. It is in easy maintenance and ideal for permanent and mixed dentition cases.

REPORT ON THE CDE PROGRAM

POST EVENT REPORT :

Organized by the Department of Orthodontics and Dentofacial Orthopedics, MINDS, MAHE

Topic: *Enhancing Clinical Efficiency with Damon Passive Self-Ligation and AdvanSync2 Class II Corrector*

Date: 24/04/2025

Venue: NAVATARA AUDITORIUM, MINDS

The Department of Orthodontics and Dentofacial Orthopedics, MINDS, MAHE, successfully organized a Continuing Dental Education (CDE) program titled "*Enhancing Clinical Efficiency with Damon Passive Self-Ligation and AdvanSync2 Class II Corrector.*" The event aimed at enriching the clinical skills and theoretical understanding of orthodontic appliances among budding orthodontists and practicing clinicians.

MAHE INSTITUTE OF DENTAL SCIENCES & HOSPITAL
Affiliated to Pondicherry Central University, Recognized by Dental Council of India
Chalakkara, P.O. Pallor, Mahe-673 310
U.T. of Puducherry. Ph : 0490 2337765

The program commenced with a warm welcome by Dr. Roshaline and Dr. Hanna Saju Jacob, first-year postgraduate students.

The inaugural ceremony began with the welcoming of the dignitaries onto the dais, including:

- Dr. Anil Melath, Principal, MINDS, MAHE
- Dr. M. Selvamani, Vice Principal
- Dr. Raj A.C., Chairperson, DED
- Dr. Jithesh Kumar K, Professor and Head, Department of Orthodontics
- Dr. Gurkeerat Singh, the distinguished speaker for the day

Following the invocation prayer, led gracefully by Aleena and Afna, the dignitaries collectively lit the ceremonial lamp, symbolizing the illumination of wisdom and knowledge.

Chalakkara, P.O. Pallor, Mahe-673 310
U.T. of Puducherry. Ph : 0490 2337765

Dr. Jithesh Kumar K delivered the welcome speech, highlighting the vision of the department and the importance of adopting evolving orthodontic technologies.

Dr. Anil Melath, in his address, encouraged the students and faculty members to embrace innovative techniques for enhancing clinical outcomes.

Dr. Panjami Marish introduced the guest speaker, emphasizing his achievements and contributions to the field of orthodontics

The keynote lecture was delivered by **Dr. Gurkeerat Singh**, a highly respected figure in orthodontics, who elaborated on the philosophy, biological rationale, and clinical advantages of the Damon Passive Self-Ligation system and AdvanSync2 Class II corrector. The session was highly interactive, with the participants gaining valuable insights into achieving more predictable, efficient, and patient-friendly orthodontic results.

Chalakkara, P.O. Pallor, Mahe-673 310
U.T. of Puducherry. Ph : 0490 2337765

A moment of appreciation and honor was expressed as Dr. Jithesh Kumar K felicitated Dr. Gurkeerat Singh with a token of gratitude on behalf of the institution.

The event concluded with a heartfelt vote of thanks delivered by Dr. Aswathi, Reader, Department of Orthodontics, who expressed gratitude to the speaker, dignitaries, organizing team, and all participants for making the program a grand success.

The inaugural function concluded with the National Anthem, followed by an engaging and highly informative academic session.

Overall, the CDE program was a resounding success, providing participants with advanced knowledge, clinical tips, and a renewed motivation to pursue excellence in orthodontics.

DEPARTMENT OF ORAL MEDICINE & RADIOLOGY

**CDE – ROLE OF ORAL MEDICINE AND RADIOLOGY SPECIALISTS
IN DIAGNOSIS & PREVENTION OF ORAL PREMALIGNANCIES
APRIL 2025**

FEEDBACK FORM

1. Is the topic relevant?
 - a. Very relevant
 - b. Relevant
 - c. May be
 - d. Irrelevant

2. Whether the program was adhered to the time schedule?
 - a. Very well adhered
 - b. Lagging
 - c. Crossed the time limit
 - d. Mixed opinion

3. Whether the audiovisual aids were effectively used?
 - a. Yes
 - b. No

4. Was the program beneficial for you?
 - a. Yes
 - b. No

5. What do you find good in this program?

6. Mention the areas of improvement required

REPORT

Department of Oral Medicine and Radiology, Mahe institute of Dental Sciences and Hospital observed Oral Medicine Day with a Continuing Dental Education (CDE) program on 23rd April 2025. The inaugural function was held at 9.30 AM at Navatara Auditorium, MINDS.

- **Speaker:** Dr. Jayaprasad Anekar, Professor & Head, Department of Oral Medicine, KVG Dental College, Sullia.
- **Topic:** Early Diagnosis and Treatment of Potentially Malignant Disorders (PMD) & Oral Cancer.
- *Target Audience was 3rd year students.

After the inaugural function and tea break, the session started at 10:00 AM.

The session was well-appreciated by the students, who gained valuable insights into the early diagnosis and treatment of PMD and oral cancer. The CDE program was a success, and the department is grateful to Dr. Jayaprasad Anekar for sharing his expertise with the students. The event contributed to the student's knowledge and awareness of oral medicine and its importance in patient care.

Subject: Invitation Letter- Guest Speaker.

Respected Dr.Krishna S,

We are planning to conduct a webinar series –Cognizance, at our institution MINDS in association with the MINDS Alumni Association on our zoom platform 27.03.2025 (Thursday) at 8 PM to 9 PM

To have you as our guest speaker would be an honor to the people who will be there and the whole institution. We look forward to your response, and we hope you'll accept the invitation to deliver a webinar on the topic "Normal Anatomical Variations of Oral Mucosa-A typical and varied presentations".

We are sure our students will definitely benefit from your lecture immensely. Please contact our Programme Co-ordinator Dr. Sharath Chandrashekhar, at 08138040632 if you have any queries.

Thanking you,

Yours faithfully,

REPORT – “HANDS-ON CERTIFICATE COURSE ON “BaTR- BETTER BRACKETS FOR TORQUE & ROTATION ”

A Hands-on certificate course on the topic” BaTR- BETTER BRACKETS FOR TORQUE & ROTATION “were conducted by the Dept of Orthodontics, MINDS from Feb 27th, 2025.

The course started by 10: 00 am by an introduction to BaTR brackets by Dr. Yazad Nozur Daruwala, speaker for the day.

A detailed powerpoint presentation on BaTR brackets was delivered by Dr. Yazad.

Following this, a hands-on demonstration on BaTR brackets were conducted.

Delegates were given a hands-on opportunity in adjustment of BaTR brackets for application of different torque.

The course ended with a A Q & A session.

Vote of thanks for the session were given by Dr. Roshan, IIIrd year PG.

A token of appreciation were given to Dr. Yazad by Dr. Jithesh Kumar K. & Dr. Panchami Marish.

The programme was a grabd success and was well received by all the delgates.

PROGRAMME REPORT

To
The Chairperson,
CDF Committee

From
Dr M. Selvamani
Prof & Head
Dept of Oral pathology and microbiology

Dept of Oral Pathology and microbiology celebrated National oral Pathologists Day from 24.02.25 - 26.02.25 and conducted a lecture series titled "COMMON ORAL LESIONS, DIAGNOSIS AND MANAGEMENT" on 26.02.25 from 9.30 am-12.30 pm. For 2nd and 3rd year BDS students

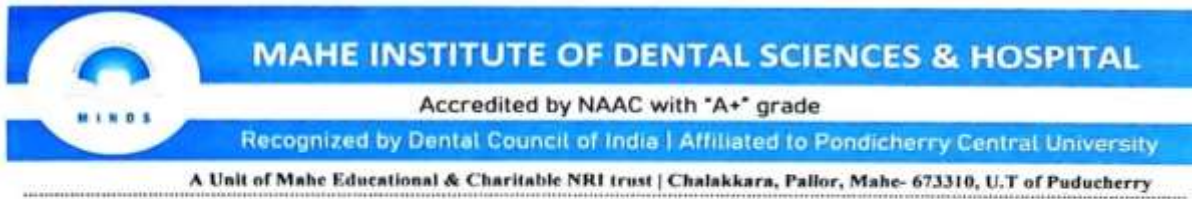

Dr. Bastian T S (organising chairperson & senior professor, dept of oral pathology and microbiology) & Dr Raj A C (chairperson, dental education department) felicitated the chief guest. Dr Koshin C N (organising secretary & reader dept of oral pathology and microbiology) introduced the speaker Dr M Selvamani (Vice Principal & HOD, Dept of Oral pathology and microbiology, Mahe institute of dental sciences and hospital) addressed the programme. Dr P Jayanthi (Professor, Dept of Oral pathology microbiology, Azeeza college of dental sciences and research) delivered the keynote presentation which gave deep insight into the topic.

The programme was a great success for vast knowledge about common oral lesions, diagnosis and management.

Post Event Report:

CDE Programme on “Decoding Full Mouth Rehabilitation”

Organized by:

Department of Prosthodontics, Crown and Bridge & Implantology

Date: 30th January 2025

Venue: Navatara Auditorium, MINDS

Resource Person:

Dr. Deviprasad Nooji

Professor, Department of Prosthodontics, Crown, Bridge & Implantology

Dean of Academics & Administration, KVG Dental College and Hospital, Sullia,
Karnataka

The Department of Prosthodontics, Crown and Bridge & Implantology successfully organized a Continuing Dental Education (CDE) program on 30th January 2025 on the topic “Decoding Full Mouth Rehabilitation.” The event aimed to provide participants with an in-depth understanding of the principles and clinical applications of full mouth rehabilitation (FMR), with a special emphasis on occlusion, treatment planning, and case-based discussions.

The inauguration commenced at 9:45 AM, graced by the presence of Dr. Sreekumar A.V., Senior Professor, Kannur Dental College and Hospital, as the Guest of Honour. The event was also attended by Dr. Anil Melath M, Principal, and Dr. Selvamani, Vice Principal, MINDS, who extended their support and appreciation for the initiative.

Around 60 participants from various dental colleges actively took part in the program. During the inaugural session, prizes for the Prosthodontics celebration were distributed, adding an element of excitement and recognition for students. The dignitaries addressed the gathering, emphasizing the significance of continuous education and advancements in prosthodontics.

Dr. Deviprasad Nooji delivered a comprehensive lecture, covering the essential aspects of Full Mouth Rehabilitation, including:

- Principles of occlusion and their role in long-term prosthodontic success.
- Treatment planning strategies for full mouth rehabilitation cases.
- Digital vs. conventional approaches in FMR.
- Clinical case discussions, highlighting real-world challenges and solutions.

MAHE INSTITUTE OF DENTAL SCIENCES & HOSPITAL

Chalakkara, P.O. Pallor, Mahe-673 310
U.T. of Puducherry. Ph : 0490 2337765

The session provided participants with a structured and evidence-based approach to full mouth rehabilitation, equipping them with practical knowledge for their clinical practice.

Post-lunch, the session continued with a live demonstration on Broadrick's Analysis, a crucial technique used for determining occlusal plane orientation in prosthodontic rehabilitation. The demonstration provided attendees with a step-by-step understanding of the procedure, enhancing their clinical skills.

The interactive session post session was highly engaging, with enthusiastic participation from attendees who posed insightful questions, leading to an enriching discussion. The active involvement of the participants contributed to the overall success of the session.

The program concluded at 5:00 PM with a valedictory session, where the organizing team expressed gratitude to the speaker, participants, and supporting faculty members for their valuable contributions.

Thank you

POST EVENT REPORT

Mahe dental college Alumni Association in association with Department of Public Health Dentistry and career Guidance Cell jointly organized the 41st cognizance webinar on 23.01.2025– Sunday at 6:00 pm onwards in Zoom Platform.

The session was welcomed by Dr. Akash, senior lecturer in the department of public health dentistry. Dr. Rajani Mary George, Prof and Head, Dept. of Public Health Dentistry, MINDS, introduced the speaker – Dr. Pravish V, who is a registered Oral and maxillofacial surgeon at Sree Anjaneya Institute of dental sciences.

The session on art and science of dental extractions was well attended by over 60 enthusiastic students and faculty members of the institution.

Dr. Pravish shared valuable information, insights and practical difficulties sparking engaging discussions and interactive exchanges between the participants.

The session was concluded by the display of certificate of appreciation for the speaker by the convener– Dr. Roshin CN, which was followed by a Vote of Thanks by Dr. Akash, Senior Lecturer, Dept. of Public Health Dentistry.

PROGRAMME REPORT

Date: 13th January 2025
Audience: Non-Teaching Staff
Venue: Lecture Hall - 1, MINDS
Title: Microsoft Excel

This training program aimed to enhance data management skills and improve administrative efficiency.

The training covered both basic and advanced Excel functionalities, including data entry, formatting, functions like SUM and AVERAGE, sorting, filtering, conditional formatting, Tables etc. A total of 40 participants from various departments attended interactive hands-on sessions, demonstrations, and case studies relevant to their daily tasks. The training enabled participants to create reports, analyze data, and automate calculations efficiently.

Feedback from attendees was positive, highlighting the practical approach and real-world applications.

The program started at 3:30 PM and concluded at 5:00 PM, including a short break between sessions. A vote of thanks was delivered at the end.

Post Event Report on Cognizance Webinar 40

The Mahe Institute of Science and Hospital (MINDS) Dental Education Department, in association with the Mahe Dental College Alumni Association and the Department of Prosthodontics and Crown & Bridge, successfully conducted the Cognizance Webinar 40 on 23rd December 2024 at 6:00pm onwards. The event featured a distinguished guest speaker, Dr. Shanker Madhavan, Professor and Head of the Department of Prosthodontics, Sree Anjaneya Institute of Dental Sciences, Calicut, Kerala. He delivered an insightful session on the topic, “Treatment of TMD Derangement of the Condyle-Disk Complex.”

The webinar witnessed active participation, with over 80 attendees, including students, faculty members, and alumni. Dr. Murshidha, a second-year postgraduate student, skillfully hosted the program as the master of ceremonies.

The session commenced with a warm welcome address by Dr. Prasad Aravind, Professor and Head of the Department of Prosthodontics, MINDS. Dr. Prasad highlighted the significance of the topic and set the tone for an engaging and informative session.

Dr. Shanker Madhavan captivated the audience with his in-depth knowledge and practical insights into the management and treatment of temporomandibular joint (TMJ) disorders, focusing on derangement of the condyle-disk complex. His presentation provided valuable perspectives on diagnosis, treatment planning, and clinical techniques, enhancing the participants’ understanding of this critical aspect of dentistry.

Following the presentation, an interactive session allowed participants to clarify their doubts with the speaker, further enriching the learning experience.

Dr. Roshan, Convenor of the Dental Education Department, presented a certificate of appreciation to Dr. Shanker Madhavan as a token of gratitude for his enlightening presentation.

The event concluded with a heartfelt vote of thanks delivered by Dr. Unni, who expressed appreciation to Dr. Shanker Madhavan for his valuable insights, as well as to the organizing team, including Dr. Roshan and Dr. Jillu Abraham, for their efforts in making the webinar a success.

The Cognizance Webinar 40 was a resounding success, fostering a spirit of learning and collaboration while contributing significantly to the academic and professional growth of all attendees.

Sub: Permission to conduct CDE program – reg.

Respected Sir,

A proposed CDE Program has been planned by Department of Microbiology & Pharmacology for 2nd year Dental students. The program will be conducted on 28th of November, 2024 for which we request you to kindly grant us permission to organize the CDE program on the date scheduled.

Our expected budget for the program would be around Rs 17500 for which we have planned to collect Rs 175 per student. The details of the accounts would be submitted after the program.

The details are:

Speakers:

1. Dr.Shyamjith Manikkoth

Additional Professor & Head [I/C]

The Report on Programme

It's our pleasure to inform you about the successful conduction of the CDE seminar (**“BRIDING THE GAP”**) for the staffs, interns & II yr BDS students on 28/11/2024 at Navathara auditorium.

Our Guest speakers were **Dr. Shyamjith Manikkoth**, Professor & HOD , Kannachur Institute of Medical Sciences, Mangalore and **Dr. Anuroopa G Nadh**, Post-Doctoral Fellow, Kerala University of Digital Sciences, Trivandrum who delivered a very significant insightful talk on **1.“Learning Strategies for a Dental Student” 2. “Revolutionizing Dental care: Insilico Drug Design for Dental Diseases”**

The event went on well and was much successful with time filled for knowledge exchanges. The inauguration function started at 10 AM, the welcome speech was delivered by **Dr. Manohar Herle**, HOD, Pharmacology and **Dr. Anjali K**, Asst. Professor & **Mrs Parvathi S**, Senior Lecturer briefed on with few words about our guest speaker.

Dr. Selvamani, Vice Principal has delivered a token of appreciation to our guest speaker and **Dr.Selvakkumar**, HOD, has delivered the vote of thanks. More than 150 participants attended the programme.

On behalf of the Department of Microbiology & Dept. Of Pharmacology, I thank the chairman, principal and vice-principal for their help in making this event a very grand success.

Evaluation Report

CDE Program "*Bridging the Gap* "

Dept. of Pharmacology and Dept of Microbiology

Session 1: Dr Shyamjith Manikkoth "*Learning Strategies for Dental Students*"

Session 2: Dr Anuroopa G Nadh "*Revolutionary Dental Care: InSilico Drug Design for Dental Diseases*"

Date: 28/11/2024

The primary aim of this evaluation is to assess the effectiveness of the **CDE (Continuing Dental Education)** program titled "*Bridging the Gap*"

Session 1 was by **Dr Shyamjith Manikkoth** on ***Learning Strategies for Dental Students***. This session was designed to equip dental students with effective learning strategies, time management

skills, and test-taking techniques to enhance academic performance and clinical proficiency. Session 2 was by **Dr Anuroopa G Nadh** on ***Revolutionary Dental Care: InSilico Drug Design for Dental Diseases*** was to educate the students on the application of computational drug

design techniques for identifying potential therapeutic agents for common dental diseases. The program introduced participants to the basics of in silico methods, their relevance to drug discovery

for oral health, and the integration of these methods into dental research and clinical practice.

Feedback Collection

- **Participant Feedback Forms:** Collected at the end of the program to gauge satisfaction with the program and identify areas for improvement.

Participants:

The program had 94 participants,

- 88 second year BDS regular batch students
- 6 second year BDS IR batch students

Evaluation Criteria:

- **Knowledge Gain:** Did participants feel their knowledge of effective learning strategies improved? Did they get a better understanding of in silico drug design and its application in dental diseases?
- **Skill Enhancement:** Did participants find the tools and strategies provided useful for managing their studies and clinical work? Were participants able to grasp key computational methods such as molecular docking and virtual screening?
- **Participant Satisfaction:** How satisfied were the participants with the content, delivery, and format of the program?

Response Summary

Participant Feedback:

- **Satisfaction with Content:** 90% of participants found the content to be highly relevant and aligned with their academic needs. Many students appreciated the focus on active recall and spaced repetition techniques for retaining complex dental knowledge.
- **Satisfaction with Delivery:** 88% of participants rated the delivery format as "good" to "excellent," 88% rated the program's content delivery as clear and well-organized. The integration of theoretical concepts with practical examples was well-received.
- **Suggestions for Improvement:**
 - 15% of participants suggested increasing the number of interactive case-based sessions.
 - 10% requested more content on managing mental health and stress related to academic pressure, especially during exam periods.
 - 30% of participants suggested adding hands-on workshops to allow for more interactive, practical learning.
- **Engagement with Interactive Elements:**

While many students found the group discussions and practical exercises useful, 20% felt that more time could be spent on real-time peer collaboration and hands-on workshops, especially for the clinical application of study strategies.
- **Program Organization:** 95% of students were satisfied with the program's organization, with particular praise for the clarity of the schedule and the responsiveness of the coordinators.
- **Technical Support (for Virtual Elements):** There were minimal issues with the virtual platform.

Conclusion

Overall, the *CDE Program Bridging the Gap* was successful in achieving its goal.

Session 1 on Learning Strategies for Dental Students received positive feedback regarding its

content and delivery, with significant gains in participants' knowledge and skills. However, areas

such as increasing interactivity, addressing mental health concerns, and improving technology

access need to be addressed for future iterations.

Session 2 of the CDE program on **In Silico Drug Design for Dental Diseases** was highly regarded

by participants, especially for the quality of its content and the knowledge they gained. However,

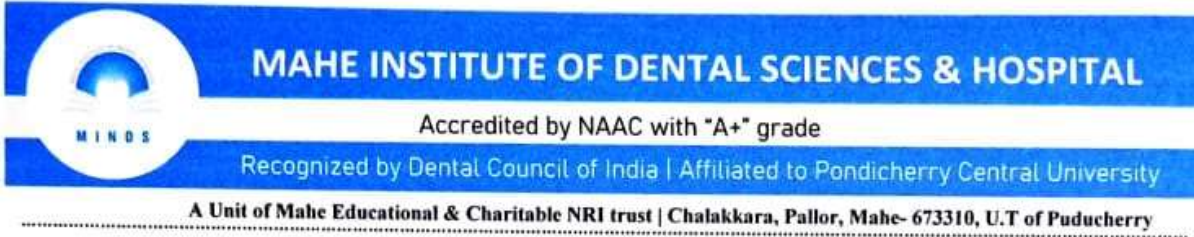

they emphasized the need for additional training on the software tools.

Addressing these areas will enhance the program's effectiveness and ensure it remains relevant in

the rapidly evolving field of dental therapeutics.

POST-EVENT REPORT

Date: 25/10/2024

Time: 7 PM-8 PM

Location: Online [Zoom]

Hosted by: Mahe Institute of Dental Sciences and Hospital, Mahe Dental College Alumni Association, and Dental Education Department in association with the Department of Pediatric and Preventive Dentistry

Facilitator: Dr. ANUPAM KUMAR.T. V Principal, Government Dental College, Alappuzha

Number of Attendees: 100

Target Audience: Final-year BDS students, Postgraduates

Overview

The 38th webinar on **Management of Injuries in Primary Dentition—A Structured Approach** was held on 25/10/2024 to briefly describe the management approach depending on the type and severity of the injury, addressing these injuries effectively and thus supporting the child's overall well-being.

Agenda

1. **Introduction**—Dr. Raj. A.C
2. **Host:** Dr. sreelakshmi
3. **Introduction of speaker:** Dr. Rena Ephraim
4. **Presentation:** Dr. Anupam Kumar T.V
5. **Q&A Session**
6. **Closing Remarks** -Dr. Ambili Ayillath

Conclusion

Overall, the webinar was successful. We appreciate all participants for their involvement and contributions. Thank you to our speaker and the organizing team for making this event possible.

REPORT ON CDE

**CONDUCTED BY DEPARTMENT OF PHYSIOLOGY
&
DEPARTMENT OF BIOCHEMISTRY**

Date-25/10/24

A CDE program was conducted by Department of Physiology & Department of Biochemistry on 25-10-24 at 9.00 AM in the Navatara Auditorium, MINDS. Topic for the program was selected as "**Stem Cell Therapy**." The speaker for the program was Dr. Devi Prasad S, MD, HOD, Dept. of Physiology.

The program was started at 09.00 AM and ended at 09.55 AM. Around 36 participants participated in the program. Participants include Medical professionals, dental professionals & PG students. The program was very interesting, informative, interactive and lively.

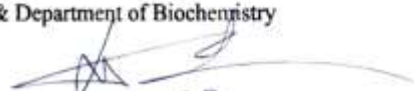

Through the interactive session Dr. B. V. Muralidhara, HOD, Department of General Pathology, added the relevance of topic in the present scenario. Many Post Graduate Dental students clarified their doubts in the interactive session.

At the end of the program Dr. Jithesh, HOD, Department of Orthodontics & Dentofacial Orthopedics, MINDS, awarded the appreciation certificate to speaker Dr. Devi Prasad S.

On the basis of feed-back and response from the participants the program was excellent.

Evaluation form

D-MAT-Diagnosing and Mastering TMD

NAME- *Faby Ashraf*

7/10

1. The infraorbital nerve

- ☒ a) Is a terminal branch of the maxillary division of the trigeminal nerve
- ☐ b) Is a terminal branch of the maxillary branch of the facial nerve
- ☐ c) Carries parasympathetic secretomotor neurons to the lacrimal gland
- ☐ d) Innervates the inferior part of the orbicularis oculi muscle.

2. The lateral pterygoid muscle

- ☐ a) Is attached to the coronoid process and elevates the mandible.
- ☒ b) Is attached to the condylar process and elevates the mandible.
- ☐ c) Is attached to the coronoid process and protrudes the mandible.
- ☐ d) Is attached to the condylar process and protrudes the mandible.

3. Which of the following statements is true of the temporomandibular joint?

- ☒ a) It has an articular disc of hyaline cartilage
- ☐ b) Its articular surfaces are covered by hyaline cartilage
- ☐ c) Proprioceptive information is carried by the chorda tympani and deep temporal nerves
- ☐ d) Proprioceptive information is carried by the masseteric and auriculotemporal nerves.

4. The major concentrations of proprioceptive receptors providing information about position of the TMJ are located in

- ☒ a) The capsule and ligaments of the TMJ and the medial pterygoid muscle.
- ☐ b) the capsule and ligaments of the TMJ and the lateral pterygoid muscle
- ☐ c) The articular disc of the TMJ and the medial pterygoid muscle.
- ☐ d) The articular disc of the TMJ and the lateral pterygoid muscle.

5. Which muscle is the most active during a right lateral excursion of the mandible?

- ☒ a) Left lateral pterygoid muscle
- ☐ b) Right lateral pterygoid muscle
- ☐ c) Left medial pterygoid muscle
- ☐ d) Right medial pterygoid muscle

6. When you examine a patient who has suffered an unfavourable fracture of the body of the mandible, you would expect the

- ☒ a) anterior fragment to be displaced downwards by the action of the digastric muscle
- ☐ b) Posterior fragment to be displaced anteriorly by the action of the lateral pterygoid muscle.

- c) anterior fragment to be displaced backwards by action of the temporalis muscle
d) Posterior fragment to be displaced medially by action of the medial pterygoid muscle.

7. Double contrast phase contrast arthroscopy is used to study

- a) Clicking of TMJ
b) Deviation of TMJ
c) Joint space
d) Disc

8. Dislocation is treated by forcing the mandible

- a) Upwards and backwards
b) Upwards and forwards
c) Downwards and forwards
d) Downward and backward

9. Hydrocortisone acetate is injected in a painful arthritic TMJ to

- a) Increase the blood supply
b) Lubricate the synovial joint
c) Anaesthetize the nerve supply
d) Decrease the inflammatory response

10. The joint which is histologically & morphologically best simulate the tmj

- a) 5th costochondral graft
b) 3rd metatarsal graft
c) Sternoclavicular graft
d) None of the above

Subject: Invitation Letter- Guest Speaker.

Respected Dr. Lakshmi Puzhankara,

We are planning to conduct a webinar series –Cognizance, at our institution MINDS in association with the MINDS Alumni Association on our zoom platform **25.07.2024(Thursday)** at **07:30 PM**

To have you as our guest speaker would be an honor to the people who will be there and the whole institution. We look forward to your response, and we hope you'll accept the invitation to deliver a webinar on the topic "The Dimensional Conundrum-Biologic width Invasion and Ramifications."

We are sure our students will definitely benefit from your lecture immensely. Please contact our Programme Co-ordinator Dr. Sharath Chandrashekhar, at 08138040632 if you have any queries.

Thanking you,

Yours faithfully,

Subject – For organizing CDE program on 18/6/2024
Respected Sir,

We the Department of Oral and Maxillofacial Surgery is planning to organize a CDE program on 18/6/2024, at 10am in Navatara Auditorium for the Teaching Faculty, Third and Fourth Year Students on the topic “MASTERING EXTRACTION CHALLENGES”. Our guest speaker for the day will be Dr. Jibin Jose Tom, MDS (Oral and Maxillofacial Surgery), Associate Professor, Kannur Dental College, Anjarakandy. This would be an extremely fruitful session to the students who are beginning their clinical postings. Kindly grant us permission to conduct the same.

Thanking You,
Yours Faithfully,

Dr. Manoj Kumar V.

ABOUT THE PROGRAMME

The programme is designed to provide comprehensive education and training in the field of tooth extraction. Exodontia, or the extraction of teeth, is a fundamental skill in dentistry and is necessary for various reasons, including severe decay, trauma, or orthodontic treatment. This course is typically tailored for dental students who want to enhance their understanding in possible complications of tooth extractions and how to manage them in a clinical scenario.

SCHEDULE

10am - INAUGURATION
10.20am - TEA BREAK
10.30am - LECTURE SESSION
12pm - DISCUSSION

Registration Fees - Rs. 100
