DETAILS OF INSTITUTIONAL DISTINCTIVENESS

7.3.1 Portray the performance of the Institution in one area distinctive to its priority and thrust within 500 words

Response:

CLINICOPATHOLOGIC CLUB

Title of the practice: CLINICOPATHOLOGIC CLUB

Conducted by: CDE committee

Objective of the practice:

The objectives of the practice are to:

1. Develop the presentation skills among post graduate students and interns
2. Train the students in scientific way on presentation with inputs from pioneers of the institution.
3. To provide a platform for recognizing the advanced learners.
4. To provide opportunities for the interested staff members to display their ideas on their area of interest/research
5. To enrich the scientific information among teaching faculties, post Graduate students and interns.
6. To provide room for open interactive- interdisciplinary scientific debates.

The context:

Clinico pathologic club functions as a platform to express scientific information and also to enhance the presentation skills. CPC functions under CDE committee. The main aim of this committee is to conduct the practice in a disciplined time bound manner. A challenging issue in the contextual features is to provide equal opportunities among the different disciplines. For this, principal during HOD meeting discusses and decides the schedule of presentation that is acceptable to all them disciplines. Principal then issues a circular before the start of the calendar year about the CPC schedule for the entire year. The CDE committee then takes the charge of conducting this program in the specified manner.

The practice:

Convener of CDE committee reminds the concerned department well in advance about the execution of program. The concerned department is free to decide on the topic of presentation and presenters and number of presenters. number of presenters can range from one to three as per the magnitude of the topic. Topics elected can be interesting clinical cases, research works, reviews or scientific data. Preference is given to those who have the opportunity of national level/state level presentation in

MAHE INSTITUTE OF DENTAL SCIENCES & HOSPITAL
Affiliated to Pondicherry Central University, Recognized by Dental Council of India
Chalakkara, P.O. Pallor, Mahe-673 310
U.T. of Puducherry. Ph : 0490 2337765

near future. The department informs these details to principal's office, minimum three days in advance. Principal then issues circular about the presentation mentioning the topic and name of presenter(s). So academic pioneers will get ample time to prepare for the interactive session during the presentation. All the teaching faculties, post graduate students and interns are invited for the program. On the day of CPC, after the introduction by the chairperson, the presenter/presenters will deliver the scientific information. After the presentation, the topic will be

open for discussion. Academic peers are invited to discuss about the pros and cons of the presentation and the methods to improve the presentation. Interactive Question and answer session will then be followed. Maximum time of discussion is limited to one hour. Chairperson of CDE committee functions as moderator to control the interactive session. The decision taken by chairperson is considered final. After the presentation, feedback will be collected from those who attended the program. Evaluation of feedback and report is submitted to the principal by the convener of CDE committee. Feedback on the quality of presentation is informed to the presenter. This helps a great way to improve the presentation skill of the presenter.

Evidence of success:

The presentable evidence of success of this program is found in the national level recognitions received for the students of Mahe Institute of Dental Sciences. Post graduate students, after getting enriched from inputs of pioneers during CPC, performs excellent during the national/state level presentations and competitions. The details presented below. This program also enhances the presenter from overcoming the stage fear and presentation fear in a great way. The information provided during the program enriches the audience and inspires them for active participation for the future programs.

Problems encountered and resources required:

Main problem encountered for the CPC committee is about timing of conduct of program. When the interns, post graduate students and staff attend CPC for one hour, out patient management is greatly affected. This gave rise to increased grievances from the patients who got delay in treatment. 3rd and 4th year BDS students also are affected by this practice as they cannot perform Clinical cases without guidance. This problem was resolved to a great extent by gathering inputs from clinical incharges and PROs. It is found that outpatient number is very minimal during morning hours of Tuesdays. Students are not posted in clinic during this time. So the CPC is then fixed on alternative tuesdays from 9to10am. This effectively enhanced the academic output and diminished the patients complaints.

Notes(Optional):

The clinic pathologic club conducted at Mahe Institute of Dental Sciences stands as excellent model for the nation.

IBO Phase II Online Examination 2025 result

Date: 21-01-2025

Dear DR. NAZILA BEGUM

Roll No: 11012025167

It gives me great pleasure to inform you that you have been **successful** in the IBO Phase II online examination held on **11th January, 2025**.

On behalf of the Indian Board of Orthodontics, I heartly congratulate you on this achievement.

I would also urge you to get Board Certified as soon as possible by clearing the IBO Phase III clinical examination.

Please consider this letter as proof of your passing the Phase II examination of the Indian Board of Orthodontics.

You will have to produce a copy of this letter when you appear for the Phase III clinical examination of the Indian Board of Orthodontics.

Please note that this letter is not a certificate or a testimony to Board status. Hence kindly do not exhibit it or present it as a qualification.

Wishing you all the best for your preparations for the Phase III Clinical examination.

With best regards,

Dr. Ajit Kalia
Secretary & Treasurer
Indian Board of Orthodontics

IBO Phase II Online Examination 2025 result

Date: 21-01-2025

Dear DR. SNEHA T

Roll No: 11012025180

It gives me great pleasure to inform you that you have been **successful** in the IBO Phase II online examination held on **11th January, 2025**.

On behalf of the Indian Board of Orthodontics, I heartly congratulate you on this achievement.

I would also urge you to get Board Certified as soon as possible by clearing the IBO Phase III clinical examination.

Please consider this letter as proof of your passing the Phase II examination of the Indian Board of Orthodontics.

You will have to produce a copy of this letter when you appear for the Phase III clinical examination of the Indian Board of Orthodontics.

Please note that this letter is not a certificate or a testimony to Board status. Hence kindly do not exhibit it or present it as a qualification.

Wishing you all the best for your preparations for the Phase III Clinical examination.

With best regards,

Dr. Ajit Kalia
Secretary & Treasurer
Indian Board of Orthodontics
